

Disability and Employment Deep Democracy Session

Why are some employers still not employing disabled people?

What needs to happen to support young people with mental health problems and people with a learning disability and/or autism into work?

We are bringing people together to share some of the issues and worries people have around employment.

What helps and what doesn't help.

We want to look at possible solutions that increase employment opportunities for disabled people.

Tuesday 13th February 2018
10.30am - 16.30pm

Venue: Disability Rights UK, Plexal, Here East Innovation Centre, 14 East Bay Lane, Queen Elizabeth Olympic Park, Stratford, London E15 2GW

Deep Democracy is an approach that creates a space for all people and all views. We want people to be able to share their thoughts and feelings in an equal, safe and comfortable way.
