In the last 12 months we have been busy paving the way for **Club Soda** to become a fully-fledged charity, raising funds and planning how we will operate independently from **Croydon Council**. A huge highlight of the last year has been our partnership with **Croydon Music & Arts** and **Kinetika Bloco** which helped us gain funding from **Youth Music** to deliver our **Soda Jam** sessions for young people until 2020. We also applied successfully to the **National Lottery** who are funding Gig Buddies Croydon for the next 3 years. These are both major projects that we are very proud to deliver and will be key to the future growth of Club Soda. There was also sad news, when our regular venue **Bad Apple** closed its doors over Christmas. We enjoyed a wonderful 6 years running our events at Bad Apple and are grateful for all the support they have given Club Soda over the years. The good news is that thanks to our friends at **Hoodooos** we soon found a new home at **The Front Room**, where we continue to run our regular events. Here's to an even more successful 2019/20.
