

Training for all Communities!

Empower the community to say no to FGM & Cultural related Health Practices.

Developing Awareness of Female Genital Mutilation:

- Understanding the effects of personal values, beliefs and attitudes towards FGM
- Understanding the importance of safeguarding against cultural health practices including FGM

Developing Awareness of Health Related Cultural Practices:

- Exploring the different cultural health practices
- Understanding the different beliefs and values of various cultures
- Recognising the different types of cultural related domestic violence
- Knowing what services are available that tackle harmful cultural health practices.

On completion you will attain Level 3 certificate accredited by OCN London which enables you to support the community!
