

Help Save Lives!

We are in urgent need of a defibrillator at Selhurst Arena where hundreds of young people and families regularly gather. If we can prevent one accident or save one life, this will pay for itself. It's a wonderful opportunity.

In times of emergency, attempting to locate our nearest defibrillator means a precious life could be lost during the time it would take to transport it, if it's available.

If you can help by donating then please contact us on 01785 472224.

See the link below and please consider how you can be a giving part of keeping lives safe.
