

DAYS and HOURS are FLEXIBLE - but we're looking for a commitment of 1 day a week

ASKI Volunteer Needed

Advice Support Knowledge Information is a Non For Profit working towards a healthier, more sustainable Croydon with more active citizens. We have been running since 2012 and cover many different areas of work including Health and Social Care, Employment Training, Equality and Diversity, Employment and Customer Care Training. However, we cannot keep up with the work and are seeking a volunteer to support the organisation in all its communications and promotions.

Key activities will include

- Supporting the Director in promotions and communications and some administration
- Updating the ASKI website with news and tips
- Promoting ASKI through digital and social media
- Maintaining the database of participants
- Supporting with events administration
- Attending events to support on the day with photographs and social media

This would be excellent experience for someone who wanted to gain more insight into the world of communications and get involved in an exciting and innovative Non For Profit
