

Our News 5

Geraldine's welcome

Hello welcome to **Our News 5**.

I must say, things over these months have been a **challenge**.

It good to hear about the **shops** reopening and the **pubs** opening in **July**.

For me, I am **not comfortable** at the moment going out **on my own**. I have to have my **friend** with me.

How about you? How do you feel about the shops and pubs being open?

What have you been doing during Lockdown?

Have you been exercising?

Have you tried cooking a new recipe?

Have you got a bubble friend?

The NHS asks about video consultation

The **NHS** got in touch and asked for our **help**.

The **NHS** would like to offer a **choice** for your **hospital outpatient appointments**. To see someone **face to face** or use **video consultation**.

This means that **outpatients** would **not** need to **travel** to the hospital.

They had **2 questions** for people with a learning disability:

Would you use **video consultation** for your **hospital outpatient appointment** - instead of a face to face appointment?

What would **stop you** using **video consultation** for your **hospital outpatient appointment** ?

I would like to give a **big thank you** to those who answered the questions for the **NHS**. The **NHS** has also said thank you for your replies.
